

Seahorse International Sailing

Seahorse Sailor of the Month

Scott Ferguson (USA)

He won it last year and we thought, ok, that's a pretty good effort from someone who spends most of his life over a computer designing rigs for the world's fastest boats. Then he won again this year, at a windy and enormous regatta in the chilly tides of the English Channel to defend his title as Laser Masters World Champion. There were plenty of other very worthy nominees there too, but Scott's now gone and raised the bar...

Piet Vroon (NED)

Is there a bigger supporter of offshore racing anywhere in northern Europe? With a series of immaculately turned out yachts, Piet Vroon has long been one of the most familiar figures at just about every race held around the English Channel and North Sea. He often wins too; plus commissioning one of the raciest of IRC racers as you move into your 80s also tells you a great deal about this understandably popular skipper.
